Online Contractor Management System

RapidContractor Management

Transform and streamline your contractor management process

rapidglobal.co.za

Seamless and efficient contractor lifecycle management

Perfect for businesses of all sizes and from all industries with contractor management needs

Rapid Contractor Management is an efficient online system to manage the lifecycle of your contractors. Streamline all steps using this award-winning software, from registration and assessment for contractor compliance, to ongoing document control.

> *Contractor compliance has increased 110 fold since implementing the products. Until we had it we didn't know who was and wasn't [inducted or compliant]. Rapid Contractor Management is a big part of our risk management strategy and an integral part of our business in how we coordinate and control our contractors.*

Centralise your document storage

Go paperless: collect, verify, and automatically track expiry dates of all types of contractor documents and licences in one online place, by storing them in Rapid Contractor Management permanently. Refer to our easy-to-use dashboard to improve your supplier lifecycle management and mitigate risks.
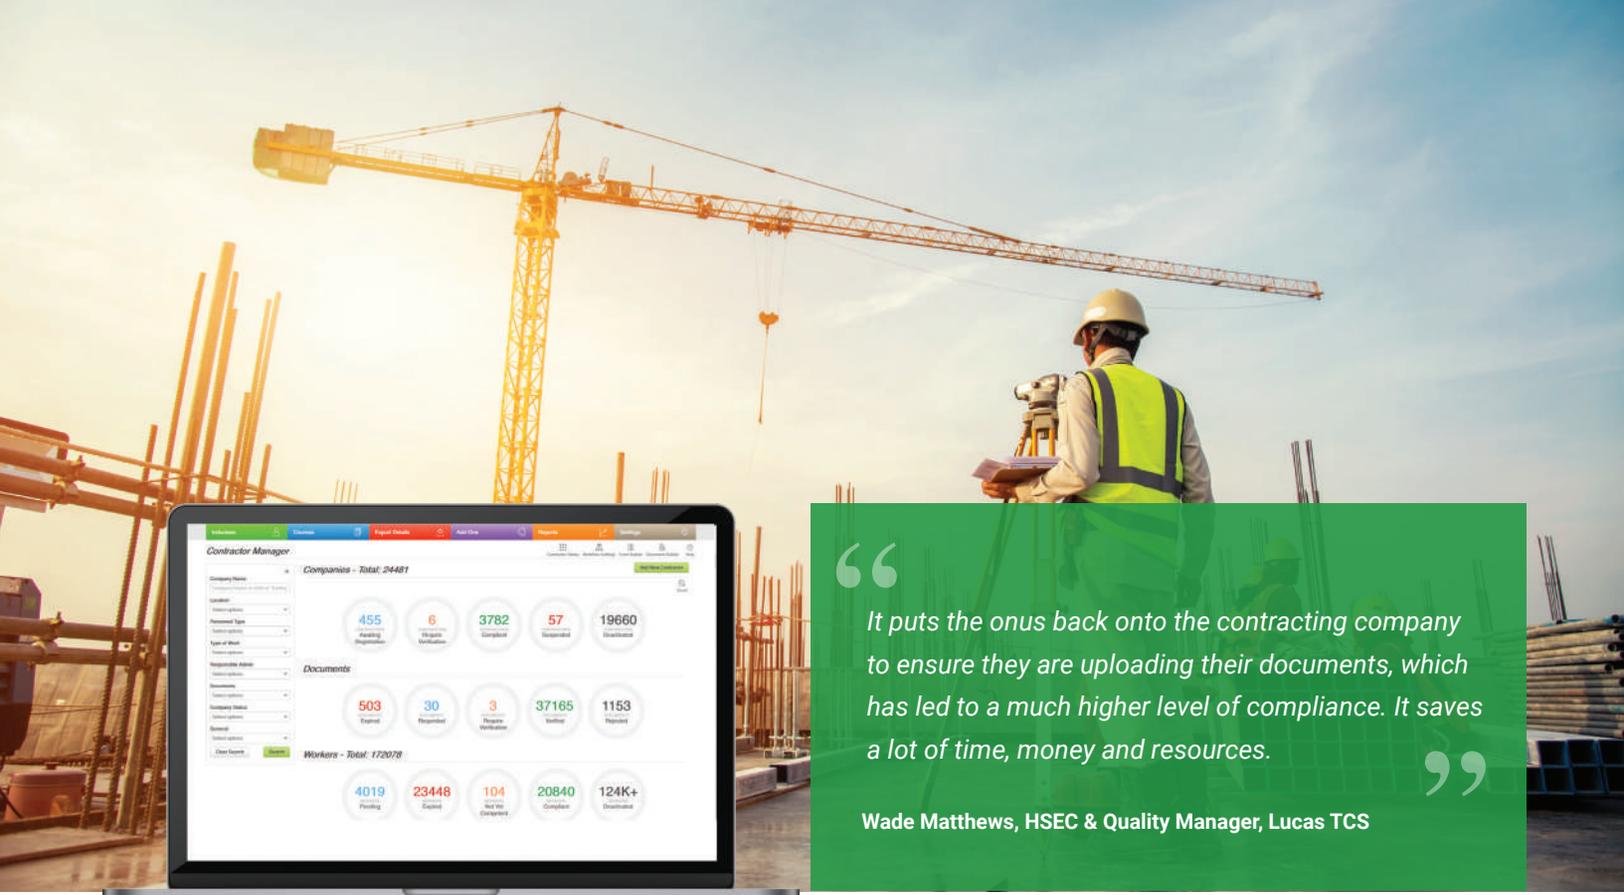

View contractor documents and licences

Contractor verification software has never been easier to use! Review and approve or reject contractor documents once they have been uploaded by the contracting company administrator and refer to them when required simply by searching for them in Rapid Contractor Management.

Check contractor status in real-time

Enjoy real-time assurance of knowing the status of every company using Rapid Contractor Management through the live dashboards and reports. Search for companies by specific, up-to-date criteria such as compliance status, region of work, or work type on any internet-enabled device.

> It puts the onus back onto the contracting company to ensure they are uploading their documents, which has led to a much higher level of compliance. It saves a lot of time, money and resources.

Automate notifications

Let the system do the work of telling your contractor companies and workers when their documents or inductions are expiring and give them instructions on how to renew them online. Automatically suspend companies when documents expire.

Customise pre-qualification questionnaires

Issue a customised pre-qualification questionnaire for companies to complete online before granting them permission to work for you. Ask questions related to contractor legal compliance and verify or request further information once submitted.
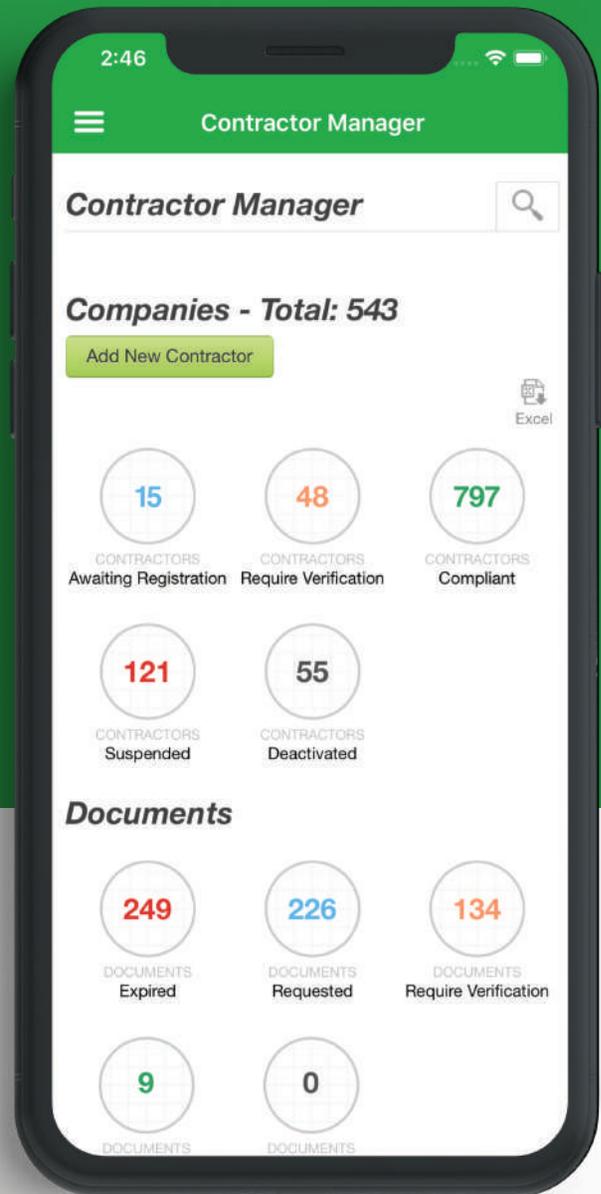

Tailor the system to your business requirements

The software can be intelligently adapted to suit your requirements. Our experienced team will configure the platform specifically to match your business needs. Leverage Rapid's standard integration API to link Rapid Contractor Management to your other business platforms such as work order and procurement systems.

Gain Efficiency Through Our Admin Tools App

Rapid Global Admin Tools App

Download our user-friendly app to search for contracting companies and view their details, including compliance, insurances, SWMS and inductees. You can also use it to issue a new company registration request, suspend a company, review documents, and deactivate/reactivate a company, all while at any location with internet!
